

Mohamed Mohamed Mounir

mhmdmnyr204@gmail.com | 01028821087

SUMMARY OF QUALIFICATIONS

- Data-driven and detail-oriented problem solver with a strong interest in data analysis and turning data into actionable insights.
- Proficient in data cleaning, analysis, and visualization using Python, SQL, Excel, and Power BI.
- Eager to apply analytical thinking and technical skills to real-world problems and contribute to data-driven decision making.

EDUCATION

Al-Azhar University

Applied Chemistry

Cairo, Egypt

Expected Graduation: 2027

CERTIFICATIONS

- | | |
|--|------|
| • Google Data Analytics Certificate (Coursera) | 2025 |
| • Google Advanced Data Analytics Professional Certificate (Coursera) | 2026 |
| • Professional Data Analysis – DEPI (Ministry of Communications and Information Technology) | 2026 |

TECHNICAL SKILLS

- **Programming Languages:** Python (Pandas, NumPy, Matplotlib, Seaborn)
- **Databases:** SQL (queries, joins, aggregations, subqueries, CTEs)
- **Data Visualization:** Power BI (dashboards, data modeling, DAX basics), Excel (advanced functions, pivot tables, charts)
- **Tools:** Jupyter Notebook, VS Code
- **Other Skills:** Data cleaning and preprocessing, exploratory data analysis (EDA), basic statistics, data analysis, reporting

PROJECT EXPERIENCE

Superstore Sales & Profitability Analysis

Jan 2024 – Mar 2024

- Analyzed the Superstore dataset to explore sales performance, profit trends, and key factors affecting profitability.
- Performed data cleaning and preprocessing using Python (Pandas).
- Used SQL for data exploration and analysis.
- Created interactive dashboards in Power BI to visualize sales, profit, and regional performance.
- Provided key insights and recommendations to improve sales and profitability.

ADDITIONAL EXPERIENCE

Data Analysis Practice

2023 – Present

- Work on various datasets to practice data cleaning, analysis, and visualization.
- Solve real-world business questions and create reports and dashboards using Python, SQL, and Power BI.
- Continuously improve skills through online courses and hands-on projects.

COURSEWORK

- Data Analysis | Python Programming | SQL for Data Analysis | Data Visualization | Statistics | Business Intelligence

LANGUAGES

- **Arabic:** Native
- **English:** B2 (Upper-Intermediate)
